Kel. Lambangjaya, Kec. Tambun Selatan, Kab. Bekasi, Jawa Barat, 17510

Information Systems graduate (Cum Laude, GPA 3.68/4.00) currently working in Customer Care Performance and Analytics at Telkomsel, with experience in data analytics, process automation, and customer experience. Proficient in SQL, Python, Power BI, Tableau, and Excel, with hands-on experience automating reporting workflows, building dashboards, and analyzing tNPS and customer interaction data. Passionate about turning complex data into actionable insights that improve customer experience and drive business decisions.

WORK EXPERIENCE

Telkomsel **Jakarta**
Customer Care Performance and Analytics, Contract October 2026 - Present

- Analyzed KIP (Complaint, Information, Request) interaction data to drive the shifting of customer service transactions toward digital self-service channels.
- Delivered weekly and monthly performance reports on ticket, order, and interaction data to help management monitor customer care trends.

Telkomsel **Jakarta**
Self Service Operation and Engagement, Contract June 2026 - October 2026

- Automated 3 manual reporting workflows using Python, replacing Excel macros and Power Automate, resulting in 97% faster processing from 6 hours to 5–10 minutes.
- Designed a Figma UI/UX prototype for a trouble ticket dashboard covering 466 GraPARI outlets and 4 vendors, proposed to the IT team to improve vendor accountability.
- Built a dashboard to standardize transaction data from 4 GraPARI Express vendors into one 23-column format, eliminating manual data reformatting.
- Wrote SQL queries in Huawei Cloud DataArts Studio to extract KIP Shifting and GraPARI Online payment data, enabling on-demand data delivery for stakeholders.

Telkomsel **Jakarta**
Product Acquisition Marketing, Intern November 2025 - May 2026

- Automated competitor benchmarking by scraping 8 ISP competitors across 503 cities using Python resulting in 98% reduction in manual process and cutting analysis cycle from 14 days to 1 day.
- Built 5 end-to-end data visualizations using Tableau, Power BI, and Excel enabling stakeholders to accelerate product performance reviews and data-driven decisions.
- Developed a 3-tier city clustering framework using K-Means and GMM for IndiHome product revamp and more targeted market segmentation.
- Maintained 6 Product Knowledge and 6 Product Catalog Matrix monthly to ensure pricing consistency for 100,000+ Salesforce across Indonesia.

BCA Digital **Jakarta**
Growth & Acquisition, Intern January 2024 - February 2024

- Organized and executed bluClass seminar attended by 200+ participants resulting in 150+ new app sign-ups and increased financial literacy awareness.
- Initiated and led bluAmbassadors program with 15 student ambassadors resulting in stronger brand presence and growing digital innovation community on campus.
- Conducted competitive event analysis and identified collaboration opportunities with universities and corporate partners for expanding brand visibility and strategic partnerships.

Telkom Indonesia **Jakarta**
Go To Market, Intern August 2023 - December 2023

- Approached 25+ potential clients via phone, chat, and email resulting in successful customer base expansion for the Agree platform.
- Designed 3 visual slide decks using Google Slides for communicating business plans and project progress to internal stakeholders.
- Conducted market research on 3 agricultural commodities identifying 65 market opportunities to support strategic decision-making for the Agree platform.
- Produced 9 Minutes of Meeting documents ensuring cross-departmental alignment and clear follow-up actions across all stakeholders.

EDUCATION

Telkom University **Bandung**
Bachelor, Information System | GPA: 3.68/4.00 August 2021 - January 2025

- Honors of Cum Laude
- Best Paper Award Object Detection of Hospital Assets Using Computer Vision with Generative Adversarial Networks Method
- Presenter International Conference ICADEIS 2025 Bandung, Indonesia
